after the B cell is activated by the helper T cell, the B cell enters a phase of rapid cell division. Some of the daughter cells become plasma cells that make even more antibodies, reaching a rate of 2,000 molecules per second.

AP Bio Immunity POGIL Flashcards | Quizlet

An old piece of poetry says "to everything there is a season... a time to be born, a time to die." For cells, the line might say "a time to divide and a time to grow." In multicellular organisms, different types of cells have different roles and need to complete specific tasks. For example, a cell that isn't large enough is not useful for storing nutrients for later, but a cell that is too large will not be useful for transportation through a tiny capillary.
