and define the field of the anthropology of birth. The authors' focus on authoritative knowledge—the knowledge that counts, on the basis of which decisions are made and actions taken—highlights the vast differences between birthing systems that give authority of knowing to women and their communities and those that invest it in experts ...

Amazon.com: Childbirth and Authoritative Knowledge: Cross ...

To date, Jordan's is still the only anthropological book in print that unites information on birth in diverse cultures under one cover--a gap in the literature that Childbirth and Authoritative Knowledge will fill. Cross-cultural birth information is in great demand in the postmodern era, as birth itself becomes an increasingly contested global domain in which the Western supervaluation of high technology confronts the struggles of indigenous peoples to maintain their lifeways, and women's ...
