Handbook Of Career Theory

The theory of vocational choice developed by John L. Holland is one of

Download Ebook Handbook Of Career Theory

the most widely researched and applied theories of career development. Based on the premise that personality factors underlie career choices, his theory postulates that people project self-and world-of-work views onto occupational titles and make career decisions that satisfy their preferred personal orientations.

A groundbreaking new theory of the real rules of politics: leaders do whatever keeps them in power, regardless of the national interest. As featured on the viral video Rules for Rulers, which has been viewed over 3 million times. Bruce Bueno de Mesquita and Alastair Smith's canonical book on political science turned conventional wisdom on its head.
