Kobo Reading App: This is another nice e-reader app that's available for Windows Phone, BlackBerry, Android, iPhone, iPad, and Windows and Mac computers. Apple iBooks: This is a really cool e-reader app that's only available for Apple

Learning Php A Gentle Introduction

Particle swarm optimization (PSO) is one of the bio-inspired algorithms and it is a simple one to search for an optimal solution in the solution space. It is different from other optimization algorithms in such a way that only the objective function is needed and it is not dependent on the gradient or any differential form of the objective. It

A Gentle Introduction to Particle Swarm Optimization

A Gentle Introduction to Haskell - classic text, but not so gentle really ;D; Haskell-Tutorial: Online Haskell Course (German) Haskell tutorial for C Programmers; Learn You a Haskell for Great Good! Beautiful, illustrated Haskell tutorial for programmers with less of a functional programming background. Learn You a Haskell for Great Good!

A learning curve is a graphical representation of the relationship between how proficient people are at a task and the amount of experience they have. Proficiency (measured on the vertical axis) usually increases with increased experience (the horizontal axis), that is to say, the more someone, groups, companies or industries perform a task, the better their performance at the task.

Python For loop is used for sequential traversal i.e. it is used for iterating over an iterable like string, tuple, list, etc.It falls under the category of definite iteration.Definite iterations mean the number of repetitions is specified explicitly in advance. In Python, there is no C style for loop, i.e., for (i=0; i<n; i++).
