Most of them are largely known; wood, cardboard, plastics, metal. In some school technology classes, exercises to design packaging with domestic materials are proposed and the materials used, with more or less success, depending on the imagination of the inspired students who offer solutions with pillows, straws or bird feathers, for instance.

Types of packaging materials: features for storage and ...

Personality measures can be in the form of interviews, in-basket exercises, observer ratings, or self-report inventories (i.e., questionnaires). Personality self-report inventories typically ask applicants to rate their level of agreement with a series of statements designed to measure their standing on relatively stable personality traits.
