Second edition of R Cookbook. We use `set.seed` to set the random number generation seed so that if you run the example code on your machine you will get the same answer. In the preceding example, `x` is a vector of 100 draws from a standard normal (mean = 0, sd = 1) distribution. Then we create a little random noise called `e` from a normal distribution with mean = 0 and sd = 5.
