The difference between day and night literally means the difference between day time and night time. A day consists of both day time and night time. The period between the sun rise to the sun set is called the day time. The part of the earth that receives sunlight experiences the day time of the day while the part that does not receive

File Type PDF Night And Day

Day and Night. Posted on 02/27/2008 by peggy. When I was in school, I never seemed to have the right coat on. If I walked to school at 7:30 a.m. (0730) in my heavy coat, I would often be too hot on the way home at 3:30 p.m. (1530) On the other hand, it would be too cold in the morning to wear a lighter coat
