...

The Nutrition Care Process is a systematic method to providing high-quality nutrition care. It was published as part of the Nutrition Care Model. Use of the NCP does not mean that all clients get the same care; the process provides a framework for the RDN to customize care, taking into account the client's needs and values and using the best evidence available to make decisions.

## **Nutrition Care Process - Academy of Nutrition and Dietetics**

The Nutrition Care Process (NCP) is designed to improve the consistency and quality of individualized care for patients/clients or groups and the predictability of the patient/client outcomes. It is not intended to standardize nutrition care for each patient/client, but to establish a standardized process for providing care.
