Rebuilt Sea Doo engines - Full Bore

Re: 787 RFI Problems Bill, I think I found the problem, come to find out my wear ring was completely gone other than the edge and a peice about the size of a quarter stuck to the edge, I am going to buy a new battery too, I already put the new ring in, and it sounds much better already(out of the water), I don't think I will have a chance to get it in the water till Tuesday, but I will let you ...

787 RFI Problems - PWCToday

A 1996 GTX i am working on for a buddy was running good, but when i brought up the rpms over 6k, it was cutting out. I already went through the whole fuel system so i know its not fuel starving. So i brought it back and decided to start with a compression test, one was 150, the other was 280. Sure enough, the 280 one had clean oil in it.
