Social Capital Critical Perspectives On

Social capital is "the networks of relationships among people who live and work in a particular society, enabling that society to function effectively". It involves the effective functioning of social groups through interpersonal relationships, a shared sense of identity, a shared understanding, shared norms, shared values, trust, cooperation, and reciprocity.

Social capital - Wikipedia

Human Capital. When reimagined, work can be more than a process. It can be an outcome that drives productivity, value and impact by unlocking human potential and creating an organization that is resilient to risk, fit for the future and grounded in meaning for workers whose identity will drive sustained results.
